Human Emotion

I Second that Emotion - Smokey Robinson & The Miracles
Human Emotion

What is an Emotion?
QUESTIONS?
“To the psychologist alone can such questions occur as: Why do we smile, when pleased, and not scowl? Why are we unable to talk to a crowd as we talk to a single friend? Why does a particular maiden turn our wits upside-down?”

“The common man can only say: "Of course we smile, of course our heart palpitates at the sight of the crowd, of course we love the maiden. And so, probably, does each animal feel about the particular things it tends to do in the presence of certain objects..."

Hume
Evolutionary Approach

Expression of Emotions in Man & Animals

Emotions evolutionarily evolved, serve survival purpose
Immediately a bestseller of its time (over 5,000 copies)

1st Scientific Treatment of Emotion

Includes survey data

Observations of healthy and mentally ill individuals

Personal anecdotes (e.g., grief expressions in Darwin's own family after death)
Darwin’s Three Principles
Darwin’s Three Principles

I. Principle of Serviceable (“Useful”) Habit
II. Principle of Antithesis

Darwin’s Three Principles
Darwin’s Three Principles

III. Principle of Involuntariness ("Nervous discharge")
Physiological Approach

Emotions secondary to physiological phenomenon

William James

Theories of Emotion Timeline

Physiological Approach

FEAR
The perception of bodily states, as they occur, is the emotion.

James-Lange
Theories of Emotion Timeline

Cannon-Bard

Physiological responses alone cannot explain emotion experience.
2-factor theory of emotion

What is an Emotion: A Broader View

**BEFORE EMOTION**

Cognitive appraisal:
provides an evaluation of events and objects

**EMOTION**

**AFTER EMOTION**

Action tendencies:
a motivational component for the preparation and direction of motor responses
6 features of an Emotion

1. Brief
2. Unbidden
3. Cross-Species
4. Coherent
5. Fast
6. Automatic appraisal/evaluation
6 features of an Emotion?

Is this a sufficient explanation?

- Brief
- Unbidden
- Cross-species
- Coherent
- Fast
- Automatic appraisal/evaluation

### Dimensional Emotions

Dimensional emotions are a combination of several psychological dimensions.

### Basic / Discrete Emotions

Emotions as discrete categories, biologically fixed, universal to all humans (and many animals).

**Basic Emotions**: Anger, disgust, fear, happiness, sadness, surprise.

**Complex Emotions**: Arise from combination of basic emotions or are culturally influenced and constructed.
